(MAI) has provided consulting engineering, planning, project/construction management, and construction services in Northern California since 1991. MAI is a certified Small, Minority, Local, Impact Area and Emerging Business and certified Local Small Firm that provides professional consulting engineering and construction management services for public and private improvement projects pursuant to engineering investigations/studies, preparation of construction documents (PSS&S), pre-, during and post construction management and inspections. Today we draw on the technical resources of our skilled staff to provide and produce quality work product for our clients. Our staff is composed of professional civil and structural engineers, traffic and transportation engineers, planners, project/construction managers, and general contractors. MAI's strength is in offering comprehensive or a selective range of services within the engineering design and construction industry such as project bid document design, review and preparation, constructability review, value engineering, and general construction engineering management and inspection services on any size and type of project - capital improvement, municipal and utilities projects. Our goal is to establish long-term working relationships with our clients by producing accurate, cost-effective work products and delivering them on schedule. Client satisfaction is our top priority. This means that our standard of performance and excellence must meet or exceed those of our clients. Our performance encourages client involvement in the decision and evaluation process of all essential elements of a project's form and function. Planned and approved programs and methods will be developed and adopted in providing strong project management, and strict adherence to established budgets and schedules. MAI has two major service divisions, Design Engineering and Construction/Management.	Bay Area	Bay Area, Central Valley, System-wide

TPG is headquartered in Visalia, and has additional offices in San Luis Obispo and Litterton, Colorado. TPG has a committed, growing staff of professionals providing consultant services through its four divisions. Together, TPG's officers and division managers have more than 100 years of experience. TPG emphasizes a client oriented focus, being accessible and responsive to its clients, while providing superior attention to detail. Project objectives, governmental requirements and client needs are met through a strong emphasis on communication. Personnel are familiar with a multi-disciplinary team approach, demanding schedules and intense field efforts. Reports are written to withstand peer, agency, public and legal scrutiny. TPG is an award winning organization! TPG was named the 2007 Small Business of the Year by the Visalia Chamber of Commerce. In addition, TPG received an Award of Excellence from the California Chapter American Planning Association (CCAPPA) - Central Section, taking first place honors in the Focused Issue Planning category for their preparation of the Cross County Path Plan for the Kings County Association of Governments. TPG has also earned a 2008 Best of Visalia Award in the consulting category by the U.S. Local Business Association, as well as a Business & Children Award from the Tulare County Child Care Policy Council.
